MULTILINGUALISM IN POLARIO

AI-driven translation!

Texts entered in the CMS are automatically captured by the system after creation and **immediately translated via AI**.

Expansion of languages

In addition to the already many existing languages, it is also possible to **add further languages on request**.

Translation Glossary

The glossary allows you to **add your own translations** for words or phrases. This is particularly useful for proper names or technical terms.

Localization in the CMS

In the Content Management System you will find an overview of all labels and designations of the app platform to **make adjustments to individual terms**.

All currently available languages:

Chinese   German (formal/informal)   Danish   English   Finnish   French   Italian

Dutch   Norwegian   Polish   Portuguese   Russian   Schwedish   Spanish   Czech
